Organised by

**INTERNAL QUALITY ASSURANCE CELL (IQAC) IN ASSOCIATION
WITH SC ST OBC MINORITY CELL, RNLKWC (A)**

**RAJA NARENDRALAL KHAN WOMEN'S COLLEGE
(AUTONOMOUS)**

Gope Palace, Midnapore - 721102, West Bengal, India

Raja Narendralal Khan Women's College (Autonomous) is hosting a Two-Day Training Workshop on food processing to mark the **International Day of the World's Indigenous Peoples 2024**. This annual observance on August 9th aims to raise awareness about indigenous communities globally and advocate for their rights. India, with its rich tapestry of diverse cultures and traditions, is home to many indigenous and ethnic groups whose unique customs and food practices contribute significantly to the country's heritage. In alignment with this year's theme, "Indigenous Youth as Agents of Change for Self-determination," the workshop seeks to empower indigenous youth by equipping them with essential skills in food processing. This initiative not only honors the cultural richness of indigenous communities but also supports their self-determination by fostering skills that can enhance their economic opportunities and cultural sustainability. Through this training, participants will gain practical knowledge that can help them preserve and promote their traditional food practices while adapting to modern economic challenges.

All interested UG and PG students are requested to register by assembling at 2.15 pm on 8th August 2024 at the Food Processing Centre adjoining the Guest House, Biodiversity Park in the college Campus.

After the training, the processed food products will be available for sale on 9th August 1.00pm onwards. All faculties and staff are requested to encourage the students by visiting their stalls.
